Pagrindinės savybės

- ✓ Stand design is compatible with a variety of chassis and doesn't occupy PCIe slots
- ✓ Offers a support height of 72-128 mm, delivering a strong, adaptable design
- ✓ An adjustable wheel and release button enable easy, toolless setup and removal
- ✓ Included spirit level simplifies setup
- ✓ Embedded 3D ARGB element is compatible with Aura Sync

Aprašymas

PILLAR OF STRENGTH

The ROG Herculx packs the structural integrity to bear the burden of even the heaviest graphics card. Toolless installation, precision adjustment, and customizable RGB lighting are combined into a space-saving design that neatly slides in to protect your investment in GPU horsepower.

STRONG AND ADAPTABLE

With an adjustable height ranging from 72 to 128 mm and the strength to support even the most powerful graphics cards in a variety of chassis, the upright design of the Herculx banishes sag without cluttering your build.

NO TOOLS NECESSARY

ROG Herculx installation is completely toolless — simply lift the extending platform and use the adjustable wheel to fine-tune height. And for easy removal, the platform releases smoothly at the touch of a button.

NEXT-LEVEL PRECISION

Use the magnetic spirit level to ensure your graphics card is perfectly aligned.

BRILLIANCE TO MATCH YOUR BUILD

A 3D ARGB element on the side of the top platform radiates lighting effects that can be customized and synced with other ASUS components via Armoury Crate.

Techninė specifikacija
