Aprašymas

SJCAM SJ11 Active Action Camera

The SJCAM SJ11 Active lets you capture dynamic moments in 4K at 30 fps, 2K at up to 60 fps, and take photos with a resolution of up to 20 MP. Image quality is ensured by the Ambarella SoC and a Sony sensor, while the combination of electronic image stabilization and a 6-axis gyroscope helps produce smooth footage during active movement. The camera also offers a wide 154° field of view, 8x digital zoom, distortion correction, and water resistance up to 5 m without an additional case and up to 30 m when placed in the included waterproof case.

Smooth 4K Videos and 20 MP Photos

Capture detailed footage of your travels, sports challenges, and other activities thanks to a wide range of resolution options. The SJCAM SJ11 Active records in 4K at 30 fps, 2K at up to 60 fps, 1080p at up to 120 fps, and 720p at up to 120 fps, with a maximum photo resolution of 20 MP. Available features include time-lapse, slow-motion, loop, delayed, and pre-recording modes, as well as motion detection, car mode, portrait mode, and simultaneous photo and video capture.

Stable footage during dynamic action

6-axis gyroscopic stabilization helps reduce shake when recording activities such as biking, skiing, or skydiving. The camera also lets you spectacularly showcase fast-paced events in slow motion—it offers 2x slow motion in 2K at 60 fps, 4x in 1080p at 120 fps, and 8x in 720p at 120 fps. This allows you to capture the finer details of dynamic action more precisely and play them back smoothly.

154° Wide Field of View and Distortion Correction

The f/2.0 lens provides a 154° field of view, allowing the camera to capture a wide portion of the surroundings without having to constantly adjust the frame. The distortion correction feature reduces the characteristic fisheye effect, helping you achieve more natural-looking shots. You can also use the 8x digital zoom, and available white balance settings include auto, daylight, cloudy, incandescent, fluorescent, and underwater modes.

Two Screens and Convenient Controls

The large 2.33-inch HD touchscreen lets you conveniently adjust settings and review recorded footage. The camera also features an additional 1.3-inch screen. The metal housing aids in heat dissipation and increases drop resistance, and with dimensions of 64.5 × 44.5 × 30.5 mm and a weight of 108 g, the SJCAM SJ11 Active maintains a compact design.

Wi-Fi Connectivity and App Support

The SJCAM SJ11 Active supports 2.4 GHz and 5 GHz Wi-Fi, allowing you to connect the camera to your smartphone and use the SJCAM Zone app. With the app, you can view and download recordings, as well as edit photos and video clips on your phone. The camera also supports live streaming on YouTube, can function as a webcam, and is compatible with the dedicated SJCAM remote control.

Ready for Water Adventures

The SJCAM SJ11 Active housing itself is waterproof to a depth of 5 m, so the camera can accompany you during activities in the rain or in the water, among other things. When used with the waterproof housing, it can be used at depths of up to 30 m. The 1300 mAh lithium-ion battery provides up to 100 minutes of recording time in 4K at 30 fps, and footage can be saved to a microSD card with a capacity of up to 128 GB.

Included in the set

- SJCAM SJ11 Active camera
- Transparent waterproof case
- Black mounting frame
- Lens cap
- Mounting bracket with mounting screw
- 2 mounting bases
- USB-C cable
- 3M adhesive strips
- Microfiber lens cleaning cloth

Manufacturer	SJCAM
Model	SJ11 Active
Video resolution	4K (16:9) 30 fps, 2K (16:9) 60/30 fps, 1080p (16:9) 120/60/30 fps, 1080p (9:16) 30 fps, 720p (16:9) 120/60/30 fps
