Aprašymas

SJCAM SJ6 Ultra Action Camera

The SJCAM SJ6 Ultra action camera records video in True 4K at 30 FPS and offers up to 120 FPS in Full HD, making it ideal for capturing dynamic activities, travel, and vlogs. The 166° wide-angle lens captures a broad field of view, while SteadyMotion 2.0, a six-axis gyroscopic stabilizer, and horizon correction up to 45° help ensure smoother footage while on the move. The camera features two displays—a 2.0" rear touchscreen LCD and a 1.3" front LCD—and supports voice control, an external wireless microphone, 2.4 GHz and 5 GHz Wi-Fi, and microSD cards with capacities up to 512 GB.

True 4K and up to 120 FPS—capture every moment

The SJ6 Ultra records in 4K resolution (3840 × 2160) at 30 FPS, delivering detailed footage that lets you capture your most important moments in stunning detail. Also available are 2K (2560 × 1440) modes at 60 or 30 FPS, Full HD 1920 × 1080 at 120, 60, or 30 FPS, and 720p 1280 × 720 at 120

or 60 FPS. So you can adjust the settings to suit the type of scene you’re recording, and the 166° wide-angle lens makes it easy to capture expansive landscapes, larger groups of people, and dynamic first-person shots.

SteadyMotion 2.0 – Smoother Footage on the Move

Whether you’re hiking, playing sports, or engaging in other dynamic activities, the SteadyMotion 2.0 electronic stabilization system—supported by a six-axis gyroscopic stabilizer—ensures high-quality footage. The camera also offers horizon correction up to 45°, which helps maintain proper image alignment despite changes in the device’s position. The distortion correction feature provides additional support when capturing impressive shots.

Two Screens for Convenient Framing

The 2.0" rear touchscreen LCD provides convenient access to camera controls and a preview of your shots. On the front, there’s an additional 1.3" LCD display that makes it easier to control the frame when filming yourself—a useful feature, especially when creating vlogs. No matter which side of the lens you’re on, you can more easily ensure the right composition for your footage.

More Ways to Create Creative Footage

The SJCAM SJ6 Ultra offers an extensive set of video modes, including standard recording, Slow Motion, live streaming, Time Lapse Video, Video Snapshot, and Dash Cam mode. Dash Cam Mode supports loop recording and automatically starts recording when the vehicle is turned on. For taking photos, Standard, Interval, and Burst modes are available, and the maximum photo resolution is 20 M, or 5184 × 3888 pixels.

Voice Control and Wireless Microphone Support

Multilingual voice control allows you to give the camera hands-free commands, such as starting and stopping recording, taking photos, or switching modes. This is a practical solution for self-recording and activities where directly pressing buttons would be inconvenient. The camera also supports an external wireless microphone, including the M4 model, which allows you to capture clearer audio during vlogging, interviews, and outdoor recordings.

A compact camera ready for all kinds of adventures

The SJCAM SJ6 Ultra weighs 77 g, so it doesn’t feel like a burden during all-day use, and its compact design makes it easy to mount on helmets, chest straps, drones, and more. When placed in a waterproof case, the camera can operate at depths of up to 30 m, allowing you to record even during water activities. The removable battery has a capacity of 1,000 mAh, and 2.4 GHz and 5 GHz Wi-Fi connectivity, a USB-C port, remote control support, and support for microSD cards up to 512 GB ensure a wide range of uses.

Included in the set

- SJCAM SJ6 Ultra camera – 1 pc.
- Battery – 1 pc.
- Waterproof housing – 1 pc.
- Mounting frame – 1 pc.
- Helmet mounts – 2 pcs.
- Base mount – 1 pc.
- Micro USB cable – 1 pc.
- Cleaning cloth – 1 pc.
- 3M stickers – 1 set
- Logo stickers – 1 set
- Lens cover – 1 pc.
