Aprašymas

SJCAM SJ4000 Action Camera

The SJCAM SJ4000 lets you capture dynamic moments in Full HD 1080p at 30 fps and take photos with a resolution of up to 12 MP. The 170° field-of-view lens captures a wide frame, and when placed in a waterproof case, the camera can record at depths of up to 30 m. The device weighs only 60 g, measures 59 × 41 × 31 mm, and is available in 6 colors: black, white, red, yellow, blue, and silver.

Record in Full HD and take 12 MP photos

The camera records at a resolution of 1920 × 1080 at 30 fps, allowing you to capture important moments with sharp details and vivid colors. Also available are 720p modes at 60 or 30 fps, WVGA 800 × 480 at 30 fps, and VGA 640 × 480 at 30 fps. The SJCAM SJ4000 also lets you take photos at resolutions up to 12 MP and offers several lower resolution settings, allowing you to adjust the settings to your current needs.

Wide-Angle View and Convenient Preview

The 170° field-of-view lens allows you to capture a wide portion of your surroundings, which is useful when recording activities and expansive scenery. It has an f/2.2 aperture, while the 2-inch LTPS LCD screen provides convenient access to the live view and camera settings. Video is saved in MP4 format with H.264 encoding, and photos are saved in JPG format.

Different Modes for Every Adventure

The SJCAM SJ4000 offers standard recording, time-lapse mode, dashcam mode, loop recording, and motion detection. For loop recording, you can choose segments of 3, 5, or 10 minutes, or turn this feature off completely. When taking photos, standard, interval, and burst modes are available, and the camera can also function as a webcam.

Ready for Underwater Shots

Once the SJCAM SJ4000 is placed in its waterproof case, it can be used at depths of up to 30 m, easily switching from recording on land to capturing underwater footage. The camera offers a special underwater white balance mode, as well as automatic settings and presets for daylight, cloudy conditions, tungsten lighting, and fluorescent lighting. You can also adjust the exposure value within a range of ±2 EV.

Up to 130 minutes of runtime

A 900 mAh lithium-ion battery with a voltage of 3.7 V and an energy capacity of 3.33 Wh provides up to 130 minutes of runtime when recording in 1080p at 30 fps. Videos and photos can be saved to a microSD card with a capacity of up to 128 GB, providing ample space for footage from your next adventures. The camera also features a USB-C port, one microphone, and one speaker.
