Aprašymas

SJCAM ZV200 Camera (Black)

The SJCAM ZV200 lets you record videos at resolutions up to 5K at 30 fps and take photos up to 80 MP, allowing you to capture every detail of every shot. 6-axis gyro stabilization reduces shake when filming on the move, and the 16x digital zoom makes it easy to capture more distant subjects. The camera also features autofocus, 9 preset scene modes, a built-in flash, a 2.8″ rotatable IPS screen, and a variety of video and photo modes. Measuring 11 × 6.2 × 4.8 cm and weighing 250 g, it remains compact and convenient to take on the go.

Photos up to 80 MP and precise autofocus

The maximum resolution of 80 MP allows you to capture detailed photos of landscapes, architecture, or portraits, and you can also choose from 64 MP, 48 MP, 36 MP, 24 MP, 20 MP, 12 MP, and 8 MP settings. Autofocus quickly and precisely focuses on the subject, minimizing the need for manual adjustment. You also have access to standard photography, interval and burst shooting, and time-lapse photography, while 9 preset scene modes help you adjust settings for portraits, landscapes, night shots, and sports, among others.

Detailed 5K Video Recording

The SJCAM ZV200 records at a maximum resolution of 5K at 30 fps, making it ideal for vlogging or documenting events, among other uses. You can also choose 4K at 30 fps, 2.7K at 60 or 30 fps, 1080p at 60 or 30 fps, or 720p at 60 fps, adjusting the settings to suit your specific content. In addition to standard recording, time-lapse and loop recording modes are available, and videos are saved in MP4 format with H.264 encoding.

Stable Shots and 16x Zoom

6-axis gyro stabilization effectively reduces shake and blur caused by camera movement, helping you capture smoother footage while walking, running, or filming on the move. The 16x digital zoom, meanwhile, lets you zoom in on distant subjects without having to change your position, which is useful when capturing landscapes, events, or more distant details. Smooth zoom control also allows you to frame your shots more precisely.

More Control Over Every Shot

The camera lets you set the ISO sensitivity between 100 and 6400, exposure compensation between ±2 EV, and one of three metering modes—averaged, center-weighted, or spot. White balance settings are also available, tailored for conditions such as daylight, cloudy weather, tungsten and fluorescent lighting, snow, and underwater photography. You can also apply effects such as black-and-white, vintage, negative, warm, cool, red, green, and blue, and the built-in flash provides additional light when taking photos or recording in darker environments.

Useful Recording Features and a Rotatable Screen

The SJCAM ZV200 is equipped with a speaker and a built-in microphone with support for a dedicated external microphone, and the hot shoe allows you to connect compatible accessories. The camera also offers a webcam function, and footage can be saved to a microSD card up to 128 GB or a U3 TF card. The 2.8″ rotatable IPS screen makes it easy to frame your shot from any angle. Measuring 11 × 6.2 × 4.8 cm and weighing 250 g, the device is extremely portable for travel, and the 800 mAh lithium-ion battery provides 70 to 80 minutes of runtime and is charged via a USB-C port.

Included in the box

- ZV200 camera
- 800 mAh battery
- Data cable
- Velour pouch
- Cleaning cloth
- Strap / lanyard
- User manual
- Outer packaging
