Aprašymas

SJCAM ZV100 Camera

The SJCAM ZV100 lets you capture photos at up to 80 MP and 5K video at 30 fps, allowing you to capture a wealth of detail in both photos and videos. The camera also offers, among other features, 4K recording at 60 or 30 fps and Full HD 1080p at up to 120 fps. You get a 16x digital zoom, an AF system for quick focusing, and a 2.8-inch TFT screen. All of this is packed into a slim design just 22 mm thick, making it easy to take the camera with you.

Detailed photos and videos

Photo resolution up to 80 MP lets you capture scenes in great detail, highlighting their colors and textures. Depending on your needs, you can also choose from a variety of lower resolutions, including 64 MP, 48 MP, 24 MP, 12 MP, and 5 MP. The SJCAM ZV100 also offers several photo modes—in addition to standard photo capture, it supports interval shooting, burst mode, and time-lapse photography. When it comes to video, the camera allows you to record at a maximum resolution of 5K at 30 fps, and you can also choose 4K at up to 60 fps, 2.7K at up to 60 fps, and 1080p and 720p at up to 120 fps. Footage is saved in MP4 format using H.264 encoding, and available modes include standard recording, time-lapse, slow motion, and loop recording.

Slow Motion, Loop Recording, and AF System

Want to capture a dynamic moment in greater detail? The ZV100 lets you record slow-motion footage in 1080p—at 2x slow motion at 60 fps or 4x slow motion at 120 fps. A loop recording feature is also available, with options for 1-, 3-, or 5-minute segments, offering additional flexibility to tailor the camera’s operation to your specific needs. The intuitive AF system makes it easy to capture sharp images without complicated setup—simply press the shutter button, and the camera will focus on the selected subject, keeping operation simple for both beginners and more experienced creators.

Image Control and Compact Design

The camera allows you to adjust the settings of your footage to suit the prevailing conditions. The ISO range is from 100 to 6400, while exposure compensation can be adjusted within a range of ±3 EV. White balance settings—Auto, Sunny, Cloudy, Incandescent, and Fluorescent—are also available, allowing you to select the appropriate option for the lighting conditions, and the 16x digital zoom lets you zoom in on a selected portion of the frame. The ZV100 stands out for its compact design and is just 22 mm thick —its slim design makes it easy to carry the camera in a bag or jacket pocket, so you can conveniently keep it on hand while shooting outdoors, even on the go, without needing a large setup.

Screen, Storage, and Power

The built-in 2.8″ TFT screen makes it easy to operate the device, and a single microphone and speaker round out the camera’s capabilities. Content can be saved to a microSD card with a capacity of up to 256 GB, allowing you to tailor the storage space for photos and videos to your needs. The ZV100 also features a USB-C port and a webcam function. Power is supplied by a 750 mAh lithium-ion battery with a voltage of 3.7 V and a capacity of 2.775 Wh (10.36 Wh) —thanks to the SJCAM ZV100’s compact design, you can comfortably record outdoors and take the device wherever you want to create new content.

Included

- ZV100 camera x 1
- 750 mAh battery x 1
- Data cable x 1
- Velour pouch x 1
- Cleaning cloth x 1
- Wrist strap x 1
- User manual x 1
- Outer packaging x 1
