Pagrindinės savybės

- ✓ Pressing/Cutting in one step
- ✓ Provides pull hooks and blade
- ✓ Cutting device and tactile sensor can be switched off

Aprašymas

The equip® LSA punch down tool for all data, information and telecommunications cabling. Applicable for all LSA-series and RJ45 jacks and high band. Allows the connection of conductor diameters (0.35~0.9mm) and core diameters (0.7~2.6mm). When wiring a second wire in contact, the sensor is switched off (depending on number of wires and wire specification). The cutter can be switched off to allow the looping of a potential on adjacent contacts
