Pagrindinės savybės

- ✓ Rated for 600W
- ✓ Suitable for any graphics card with 12V-2x6 or 12VHPWR connector
- ✓ Reverse angled connector is ideal for graphics cards where the 4 sense pins are on the side facing the top
- ✓ Elegant look with black rubberized individual cable sleeves
- ✓ Follows latest specifications for firm fit

Aprašymas

Power for the next generation

The 12V-2x6 / 12VHPWR 90° Reversed Cable comes with an angled connector on one side for easier cable management with any ATX 3.1 be quiet! power supply. A perfect blend of aesthetics and function with single sleeves.

ANGLED CONNECTOR

No more worrying about bend radius

Thanks to the 90° angled connector, you can route the 12V-2x6 / 12VHPWR 90° Reversed Cable much closer to the graphics card. The usual recommended “do not bend before 40mm from the plug” rule for safe application and a tight fit no longer applies. This makes cable management much easier.

ALL-BLACK, ELEGANT DESIGN

Single-sleeved cables for a clean setup

A perfect blend of aesthetics and function, the 12V-2x6 / 12VHPWR 90° Reversed Cable features single-sleeved wires offering high durability and flexibility.

USE CABLE CORRECTLY

For a long lifespan

Note: This cable may not work with all graphics cards. Please make sure that the 4 sense lines are on the correct side of the female connector. Make sure that the connector is firmly seated and flush with your graphics card.
