Aprašymas

WOLFBOX MegaFlow 100 Blower

The WOLFBOX MegaFlow 100 is a high-performance blower equipped with a high-power motor that generates a very strong airflow, ensuring effective removal of dirt from hard-to-reach areas. The device offers a maximum airflow speed of 45 m/s, allowing for quick and precise cleaning of various surfaces. Three-speed adjustment allows you to tailor the device's operation to your current needs—from a gentle airflow to maximum power in full-capacity mode.

Mobility, eco-friendliness, and ease of use

The device is an eco-friendly alternative to compressed air in cans, offering repeated and safe use without generating single-use waste. Its lightweight, compact design, weighing approximately 300 g and measuring just 16 × 4 × 6 cm, makes the blower easy to carry and ideal for everyday use. Battery power ensures full mobility, and the cell protection system enhances operational safety and stability.

High-capacity battery and fast charging

The built-in 22.2 Wh battery ensures convenient operation without the need for a constant power connection. A full charge takes approximately 2.5 hours using a 5V/2A USB-C port, allowing the device to be quickly restored to operational readiness. The MegaFlow 100 can be charged from various sources, such as a wall charger, car charger, power bank, or computer, which increases its versatility.

Versatile use at home, in the car, and outdoors

The blower is ideal for many applications—from cleaning car interiors and removing dust from electronics to outdoor work. The set includes various nozzles and brushes that allow you to adapt the tool to a specific task, including precise cleaning of keyboards, computer cases, or hard-to-reach nooks and crannies. Additional nozzles also allow you to inflate mattresses and beach accessories, increasing the device's functionality.

Smart features and safety

The MegaFlow 100 is equipped with an automatic shut-off feature after 3 minutes of inactivity, which enhances safety and saves energy. An overheating protection system and the appropriate design of the air inlet and outlet ensure stable operation of the device. For best performance, check that the nozzles are properly secured before each use to prevent them from coming loose during operation.

Package Contents

- Electric blower
- USB-C power cable
- Wrist strap
- Nozzle set (narrow nozzle, wide nozzle, cone nozzle for mattresses, cone nozzle for beach toys)
- Soft and hard brushes
- Carrying case
- User manual

Specifications

Manufacturer	WOLFBOX
Model	MegaFlow 100
Battery capacity	22.2 Wh
Charging voltage and frequency	5 V / 2 A
Full charge time	Approx. 2.5 hours
Operating time	Up to 100 minutes
Maximum airflow speed	Up to 45 m/s
Operating modes	3-speed adjustment
Dimensions	16 × 4 × 6 cm
Weight	Approx. 300 g
Safety systems	Overheating protection, automatic shut-off after 3 minutes of inactivity
Power supply interface	USB-C

Gross weight: 640, Net weight: 690, Box length: 22,00, Box width: 14,50, Box height: 5,50, GPSR Link: https://psr-assets.innpro.pl/small_appliances/sg_small_appliances_vacuum_cleaners.pdf [eng], PPWR: <https://ppwr.innpro.pl/redtiger>
