Aprašymas

ROBOT VACUUM FLOOR CLEANER RVF 7 COMFORT EXTRA

Autonomous vacuuming and mopping: The RVF 7 Comfort Extra with camera and AI cleans hard floors and low-pile carpets, while the multifunction station provides even more autonomy.

Experience effortless floor cleaning with the intelligent RVF 7 Comfort Extra. The innovative robot vacuum and mop not only cleans hard floors, but also low-pile carpets – and does so completely autonomously. Thanks to intelligent LiDAR navigation, camera and AI technology, it recognises obstacles and navigates unerringly through all rooms. With a suction power of up to 10,000 pascals, it effortlessly removes dirt during dry cleaning, while the proven Kärcher roller technology ensures excellent wet cleaning. The multifunction station of the RVF 7 Comfort Extra enables even greater autonomy. As soon as there is no fresh water or the containers for dirty water and dry dirt are full, the RVF 7 Comfort Extra automatically moves to the station. Fresh water is topped up there and dirty water and dry dirt are disposed of – all without any intervention. Control the RVF 7 Comfort Extra conveniently via app and enjoy more free time while it keeps your home sparkling clean.

Tried-and-tested roller technology

The rotating roller is continuously moistened with fresh water and thoroughly wiped after each rotation. This guarantees hygienic and effective wet cleaning of hard floors.

Intelligent dirt detection

The RVF 7 Comfort Extra detects the degree of soiling and then automatically adjusts the cleaning parameters to ensure thorough cleaning.

Live camera with remote access

You can access the live camera of your connected RVF 7 Comfort Extra at any time via the app, allowing you to monitor your own home while out and about.

- Enables fast and accurate detection of rooms, even in the dark. This means the robot vacuum cleaner always keeps its bearings and cleans reliably
- The additional single laser sensor and the intelligent camera recognise small or flat objects, such as shoes, socks or cables, that are invisible to the LiDAR
- If the laser camera system detects obstacles, these are transferred to the storable maps
- If the RVF 7 Comfort Extra detects wet dirt or liquid on the floor, the main dry vacuum-cleaning brush is automatically raised
- If the RVF 7 Comfort Extra detects a carpet during wet-cleaning, the mop roller is automatically raised to protect the carpet from moisture (individually adjustable in the app)
- The main brush is equipped with a special anti-hair entanglement element so that long hair is much less likely to wrap around the brush and can therefore be removed much more easily
- The microfibre rollers are continuously moistened with water from the fresh water tank, while dirty water is collected in a separate tank. For clean floors – every time you mop
- The multifunction station empties and fills the water tanks and empties the dry dirt container automatically. The robot then continues cleaning on its own
- After each cleaning run, the mop roller is automatically cleaned with warm water and then dried with warm air
- Quick and easy change of cleaning mode at the touch of a button directly on the machine or at the multifunction station, operation is intuitive, convenient and possible without an app
- The mop roller is machine washable up to 60 °C. This means that even stubborn dirt that has built up in the microfibre roller over time can be effectively removed
- Another option for cleaning the microfibre roller, in addition to cleaning in the multifunction station
- Customised setting of cleaning parameters: Creating maps for different floors, setting up no-go zones, naming rooms, setting cleaning times and much more.
- Suction power, water consumption and other cleaning settings can be set individually for each room.
- The cleaning progress can be viewed continuously and detailed cleaning reports can be called up.

Summary: Kärcher RVF 7 Comfort Extra. Dust container type: Combi, Product colour: White, Shape: Round. Dust capacity (vacuum cleaner): 0.25 L, Base station functions: Charging, Purification, Noise level: 67 dB. Runtime: 150 min, Battery voltage: 14.4 V, Charging time: 3.83 h. Battery technology: Lithium-Ion (Li-Ion), Battery capacity: 5200 mAh. Diameter: 36 cm, Height: 105 mm, Weight: 5.6 kg | Vendor Homepage: <https://www.kaercher.com/int/home-garden/robot-vacuums-and-mops/rvf-7-comfort-extra-12696930.html> | Dust container type: Combi | Product colour: White | Shape: Round | Wet mopping: Yes | Dust capacity (vacuum cleaner): 0.25 | Clean water tank capacity (vacuum cleaner): 3 | Clean water tank capacity (base): 3 | Dirty water tank capacity (vacuum cleaner): 1.3 | Dirty water tank capacity (base): 2.4 | Automatic base station return: Yes | Base station functions: Charging, Purification | Obstacle detection: Yes | Number of brushes: 4 | Automatic mop drying: Yes | Navigation type: LiDAR | Noise level: 67 | Timer: Yes | Cloud-managed: Yes | Battery technology: Lithium-Ion (Li-Ion) | Battery capacity: 5200 | Battery voltage: 14.4 | Runtime: 150 | Charging time: 3.83 | AC input frequency: 50/60 | AC input voltage: 100 - 240 | Diameter: 360 | Height: 105 | Weight: 5600 | Base station dimensions (W x D x H): 400 x 450 x 520 | Package width: 350 | Package depth: 350 | Package height: 105 | Package weight: 20100 | Cleaning brush: Yes | Mop included: Yes | Packaging content: Cleaning brush Detergents: Floor cleaning Universal RM 536 500 ml / Foam Stop unscented 2 x 30 ml Waste container Quantity of filter bags: 5 Piece(s) Side brush: 4 x Wiping unit Microfibre roller: 2 Piece(s) Filter: 2 x Cleaning tool Fresh water tank Dirt | Suction power: 13000 | Unit Calculated Weight: 21.4 | Battery weight: 350 | Battery: Lithium-Ion rechargeable | Product Net Weight: 5.6 | Unit Calculated Volume: 0.1398 | Units per Shipping Box: 1 | Unit Width: 48 | Units per Pallet: 0 | Shipping Box Height: 56 | Unit Depth: 52 | Unit Height: 56 | Name: VACUUM CLEANER ROBOT RVF 7/COMFORT 1.269-693.0 KARCHER | Model name: RVF 7 Comfort Extra
