Aprašymas

The intelligent RVC 3 robotic vacuum cleaner takes care of floor cleaning, systematically and independently cleaning hard floors and low-pile carpets. Dry dirt is reliably transported into the integrated dust container by the main and side brushes and the suction component. If necessary, the RVC 3 not only cleans dry, but can also pick up light dirt when damp, thus binding the dust more effectively. When the battery capacity decreases, the RVC 3 regularly recharges itself and always returns to the charging station after completing its work. The app sends the RVC 3 on an exploration tour and automatically creates a map of the rooms by scanning the surroundings (LiDAR). Individual cleaning parameters can be set for each room, for example, which rooms should be cleaned dry or wet or not at all. Additional sensors prevent the device from falling down stairs, for example. The RVC 3 can be conveniently started via the app, using a preset individual schedule or by pressing a button on the device. If the cleaning robot needs help, it will often tell you via voice output.

Strong suction power

With a powerful suction power of 15,000 Pa, most types of dirt – even peppercorns, peanuts and cereal flakes – can be removed efficiently. There are four different suction modes to choose from for every cleaning task. The combined cleaning action of the main and side brushes ensures particularly effective floor cleaning throughout the entire house. Robot vacuum cleaner with wiping function RVC 3: Hair-free main and side brush

Hair-free main and side brush

The RVC 3 Comfort has a special structure on the brush holder that prevents hair from getting tangled in the brushes. This reduces the amount of maintenance required by the user. The specially shaped side brush prevents hair from getting tangled in it. A special comb tooth structure effectively prevents hair from becoming tangled in the main brush. Robot vacuum cleaner with wiping function RVC 3: Precise navigation

Precise navigation

With fast, robust LiDAR navigation, the robot scans and maps the rooms with precision, ensuring the best orientation for reliable cleaning trips even in the dark.

- Wet mopping
- Fall sensor
- Convenient app control with WLAN
- Data protection and updates
- Precise mapping with versatile customisation options
- Adjustment of the cleaning parameters

Summary: Kärcher RVC 3. Dust container type: Combi, Product colour: White. Dust capacity (vacuum cleaner): 2.4 L, Base station functions: Charging, Noise level: 67 dB. Runtime: 130 min, Battery life: 45 m², Charging time: 4 h. Battery technology: Lithium-Ion (Li-Ion), Battery capacity: 2600 mAh. Height: 97 mm, Weight: 2.8 kg, Base station dimensions (W x D x H): 66 x 146 x 101 mm | Vendor Homepage: <https://www.kaercher.com/int/home-garden/robot-vacuums-and-mops/rvc-3-12691100.html> | Dust container type: Combi | Product colour: White | Wet mopping: Yes | Dust capacity (vacuum cleaner): 2.4 | Water tank capacity: 2.8 | Automatic base station return: Yes | Base station functions: Charging | Brush type: Side brush | Integrated sensors: Drop sensor | Navigation type: LiDAR | Noise level: 67 | Timer: Yes | Battery technology: Lithium-Ion (Li-Ion) | Battery capacity: 2600 | Runtime: 130 | Battery life: 45 | Charging time: 4 | AC input frequency: 50-60 | AC input voltage: 100-240 | Height: 97 | Weight: 2800 | Base station dimensions (W x D x H): 66 x 146 x 101 | Base station weight: 700 | Package weight: 4700 | Cleaning cloth: Yes | Mobile app support: Yes | Cleaning brush: Yes | Suction power: 15000 | Unit Calculated Weight: 4.9 | Unit Calculated Volume: 0.02213 | Units per Shipping Box: 1 | Unit Width: 14.5 | Units per Pallet: 0 | Shipping Box Height: 35.5 | Unit Depth: 43 | Unit Height: 35.5 | Name: VACUUM CLEANER ROBOT/RVC 3 1.269-110.0 KARCHER | Model name: RVC 3
