There's TV. And there's Ambilight TV

With integrated LED lights that react to each scene, Ambilight immerses you in a halo of colourful light. Movies, sports, music videos and gaming expand beyond the screen to draw you deeper into the moment. Once experienced, you'll never want another TV without it.

Seeing is believing with the Philips P5 picture engine

Picture this—detail with greater depth, colour so incredibly vivid, skin tones so real. With such smooth, natural motion and imagery this crisp, it's as if you can feel yourself there in the moment. Open your eyes, elevate the senses and let yourself feel the difference.

Dolby Atmos creates cinema-like sound

Brace yourself. Dolby Atmos creates sound just as the director intended. Each moment immersing you even deeper into the scene. Whether with movies, series, sports or games, you'll soon get lost in the moment.

DTS:X for 3D immersive sound experiences

DTS:X makes all the difference, with sound so real it's as if you're there. With 3D audio technology adding another dimension to your sound, your living room will be transformed into an auditorium.

Game on

Get ready gamers, this is all about gameplay and graphics that perform. DLG/HSR supported, FHD 48-120Hz VRR and HDMI 2.1 means smoother gameplay. And with Ambilight gaming mode, it's time to immerse yourself even deeper into the action.

Even turn on your Philips Ambilight TV. A single command does it all. TV is compatible with Google smart speakers and Apple AirPlay too.

Size up to choice

Size matters. And in this case, it's how your television blends beautifully into your room. Whether you go for 43", 55" or 65", simply make your choice according to your needs.

European design thinking

Carefully considered central swivel stand for a more flexible angle of vision and to reduce glare. Lounge mode to enhance the lighting in your room. Recycled plastic that forms your remote. With FSC-certified recycled cardboard packaging and paper instructions, this is everything you'd expect from the Philips Ambilight TV.

Add clarity to each word with Vocal Boost

Hear each word with precision. Vocal Boost enables the listener to turn the dialogue volume up or down without any effect on the background sound. You won't miss a single moment now that each spoken sentence comes across with greater clarity.
