Pagrindinės savybės

- ✓ Anti-static glue = Anti-static glue helps reduce dust attraction during installation for a cleaner and smoother application.

Aprašymas

This PanzerGlass® screen protector for the front-screen on foldable phones is made from 60% recycled glass. Designed specifically for foldable phones, it helps protect your front-screen against scratches and the everyday hazards of life on the go.

The crystal-clear glass preserves your screen, while the smudge-resistant coating helps reduce fingerprints and grease for a cleaner viewing experience.

The enclosed EasyAligner makes installation a piece of cake, and to make it even easier, we've included step-by-step instructions as well as a QR code for quick access to our online how-to video.

FRAME FIT is made and recommended for a flawless front screen fit. FRAME FIT is a total frame changer. Choosing the right fit makes all the difference. FRAME FIT is designed for Fold and wherever the days throws at it. Covers the active screen and works seamlessly with your favorite CARE™ by PanzerGlass® case.

This screen protector is designed to help extend the lifetime of your phone, so you can keep enjoying it longer - and maybe even pass it on to someone else in the future. For full protection, combine it with PanzerGlass® Fender or Hoops® camera lens protection and a stylish CARE™ by PanzerGlass® case.

And, of course, this screen protector comes in a recyclable FSC™-certified box.

Techninė specifikacija
