- ✓ Wired full size optical mouse 1000 DPI with silent click, made out of recycled material
- ✓ USB-A connector
- ✓ Suited for both left-handed and right-handed users
- ✓ Cable length: 1.5 meters

Aprašymas

The ACT AC5006 Wired Mouse, made from recycled materials, is perfect for everyday use. It features a 1000 DPI sensor and is designed for both left- and right-handed users. The silent click feature ensures quiet operation. The mouse is powered by a 1.5 meter USB-A cable.

Silent click

The silent click feature in the mouse ensures that there is minimal noise when you press the buttons. Unlike standard mice which tend to make audible clicking sounds, this mouse's silent click mechanism is designed to operate quietly. This is especially beneficial in environments where it's important to keep noise levels down, such as offices, libraries, or shared workspaces.

Designed for both left- and right-handed users

The mouse has a symmetrical design for universal use by both left- and right-handed users. It is powered by the included 1.5 meter USB-A cable.

Made from recycled materials

At ACT, we care about the environment. That’s why we use recycled materials in our products. For example, the ABS plastic in this mouse is made from 85% recycled materials.
