Aprašymas

Darkflash K430 Computer Case + 6 Fans (White)

The DarkFlash K430 is a spacious ATX case that combines extensive expandability with an eye-catching display of components. It stands out thanks to a special front display area for figurines and collectibles, irregularly shaped glass panels, and a built-in LED strip. The case also allows for vertical installation of a graphics card without an additional adapter, and the integrated bracket helps keep heavy GPUs in a stable position. The package includes 6 fans, making the K430 a solid foundation for building a high-performance, feature-rich computer.

Plenty of Space for High-Performance Components

The K430's overall dimensions are 441 × 238 × 490 mm, so there's plenty of room inside for high-performance components. The maximum graphics card length is 410 mm, and the clearance for CPU cooling reaches 175 mm. The case supports ATX, M-ATX, and ITX motherboards, offers 7 PCIe slots, and has space for 3 SSDs and 3 HDDs. The chassis is constructed from 0.6 mm thick SPCC sheet metal, and the additional 36 mm of space behind the motherboard facilitates cable management and supports the installation of most motherboards with rear I/O panels.

Extensive cooling for demanding configurations

The DarkFlash K430 allows you to build an extensive cooling system tailored to your components. You can install 3 120 mm fans or 2 140 mm fans on top, another 3 120 mm fans on the side, one 120 mm or 140 mm fan at the rear, and two 120 mm fans at the bottom. The case also supports 360-, 280-, or 240-mm radiators on top, 360- or 240-mm radiators on the side, and 120- or 140-mm radiators at the rear. This configuration offers

great flexibility when planning airflow and allows you to tailor the cooling setup to the nature of your entire system.

Stable and Stylish Graphics Card Mounting

The built-in graphics card bracket helps securely support long and heavy GPUs, reducing the risk of PCB bending and loose connections. The K430 also supports native vertical graphics card installation without the need for an additional adapter—thanks to its rotatable PCIe slot. This allows users not only to properly secure the card but also to showcase it more effectively through the case's glass panel.

Front Display Area and Convenient I/O Panel

A dedicated front display area allows you to showcase figurines, collectibles, and decorations, enabling the computer to become part of the desk setup. The irregular shape of the glass further emphasizes the case's character, and the built-in light strip allows you to customize the interior's appearance. The I/O panel provides access to a USB-C USB 3.2 Gen 2 port with a transfer rate of up to 10 Gb/s, USB 3.0, USB 2.0, HD Audio, and power and reset buttons.

Included

- DarkFlash K430 computer case x1
- Fans x6

Manufacturer	DarkFlash
Model	K430
Color	White
Supported motherboard formats	ATX / M-ATX / ITX
Supports motherboards with rear connectors	Yes
Space behind the motherboard	36 mm
Case material	0.6 mm SPCC
Case dimensions	430 × 238 × 465 mm
Overall Dimensions	441 × 238 × 490 mm
Box Dimensions	505 × 293 × 555 mm
Maximum Graphics Card Length	410 mm
Maximum CPU Cooler Height	175 mm
PCIe slots	7
Vertical graphics card mounting	Yes
Built-in graphics card bracket	Yes
SSD bays	3
HDD bays	3
Fans - top	3 × 120 mm / 2 × 140 mm
Fans - side	3 × 120 mm
Fans - rear	1 × 120 mm / 1 × 140 mm
Fans - bottom	2 × 120 mm
Radiator - top	360 mm / 280 mm / 240 mm

Radiator - side	360 mm / 240 mm
Radiator - rear	120 mm / 140 mm
USB-C	1 × USB 3.2 Gen 2, up to 10 Gb/s
USB 3.0	1
USB 2.0	1
Audio	HD Audio
Buttons	Power / Reset
Backlighting	Built-in light strip
