Aprašymas

PGY GO Ultra FunCam Camera and Printer Kit

The PGY GO Ultra FunCam combines the protection of the Insta360 GO Ultra camera with a modular design that expands the device's capabilities when taking and printing photos. The camera can be used on its own or connected to a photo printer, allowing you to produce instant prints. With 300 dpi resolution, 16.7 million colors, and dye-sublimation technology with automatic lamination, you can produce vivid, fade-resistant photos.

Easier Selfie Framing

A convex mirror on the front makes it easier to frame your shot when taking selfies. You can immediately see how the camera is positioned relative to the scene you're photographing, which reduces the need to take photos without a preview. This practical solution makes it easier to frame your shot before pressing the shutter button.

Instant, high-quality photos

Once you connect the camera to a photo printer, you can quickly transfer your photos to paper. Dye-sublimation printing technology delivers 300 dpi resolution and supports a palette of 16.7 million colors, ensuring your photos retain their rich colors and fine details. Automatic lamination increases the resistance of the finished prints to fading, helping them retain their appearance for longer.

Print Control and Convenient Power

The status indicator keeps you updated on print progress, making it easy to see what stage the photo is at. The USB-C port enables charging, making it easy to use the kit even when you're away from home. This solution lets you conveniently print photos while traveling and in other situations where mobility is key.

Full access to camera functions

Precisely cut openings provide unobstructed access to the Insta360 GO Ultra’s lens, microphone, and sensors. As a result, the case does not restrict the camera’s basic functions while recording or taking photos. The design is tailored to the Insta360 GO Ultra model, allowing you to use its features without having to remove the case.

Comfortable to Carry and Secure Grip

Two attachment points allow you to attach a lanyard or shoulder strap, so you can customize how you carry the kit to suit your needs. The soft-touch coating improves comfort when holding the device in your hand. This design works well for both short shots and extended use of the camera outdoors.

Included

- GO Ultra FunCam x1
- Wrist strap x1
- Photo printer x1
- Photo paper (10 sheets) x1
- User manual

Manufacturer	PGYTech
Compatibility	Insta360 GO Ultra
