

VEHICLE RECORDER DRIVEPRO 550/64GB TS- DP550B-64G TRANSCEND

Modelis: TS-DP550B-64G

Gamintojas: TRANSCEND

EAN: 760557847755

Prekės kodas: 63621

173.99€

Transcend's DrivePro 550 is a dual lens dash camera that provides both drivers and passengers with optimum protection. The front lens features a STARVIS image sensor and wide field of view for capturing crystal-clear Full HD 1080P videos at 60fps, while the 180° rotatable rear lens is equipped with an Exmor sensor and four Infrared LEDs, allowing sharp in-car video recordings at night and in low light conditions.

Dual lens, double the safety

With its dual lens, the DrivePro 550 provides both drivers and passengers with optimum protection. It comes bundled with a Transcend microSD memory card built of high-quality NAND flash and tested under harsh environmental conditions.

Vision in the dark

The DrivePro 550's front lens is equipped with a STARVIS™ sensor to capture high-resolution images in superb, rich color even in low light. Supporting 1080P Full HD recording at 60fps, the front lens offers smooth footage as well as crisp still images.

Rear lens with Infrared LEDs

The rear-lens camera uses an Exmor™ sensor that records in 1080P Full HD at 30fps. It has four infrared LEDs that will automatically turn on in dim light. This greatly improves recording quality inside the cabin, even in pitch-black darkness.

Work safer behind the wheel

The DrivePro 550 also safeguards those who work behind the wheel for a living. Suitable for commercial for-hire transportation, shared transport, and charter services, the DrivePro 550 protects occupational drivers and helps ensure standard operating procedures are followed by drivers working in the taxi, express delivery, truck, and bus industries.

Wi-Fi connectivity

The DrivePro 550 features Wi-Fi connectivity that, through the exclusive DrivePro App, allows real-time footage playback and download. This means ease of access to video evidence for reporting incidents to law enforcement and insurance companies without the need to remove the device's memory card.

GPS/GLONASS receiver

The DrivePro 550 has a built-in GPS/GLONASS receiver for geotagging videos and images. With the exclusive DrivePro Toolbox, users can view routes traveled on a map display during video playback, making it easy to establish when and where an event occurred.

Built-in battery

In the event of a power outage, the built-in Li-Polymer battery can temporarily supply power to the DrivePro dashcam until the files being recorded are safely stored, so to prevent losing crucial images due to file damage.

Head-up display

Shows current speed and driver safety alerts, including LDWS, FCWS, speed alert, headlight reminder, and driver fatigue alert.

Parking mode

Activates recording when motion is detected, even when you're away from your vehicle.

Lane Departure Warning System

Prevents accidents by issuing a warning when the vehicle veers out of a lane.

Forward Collision Warning System

Warns the driver when the vehicle is getting too close to the car ahead.

Speed Alarm

Issues an onscreen alert with a warning sound whenever the vehicle's speed exceeds a preset value.

Emergency recording

Prevents overwriting of the file being recorded at the time when the G-sensor detects an impact.

Time-lapse recording

Takes you right to the heart of the matter without needing to view hours of incident-free video.

Headlight reminder

Automatically activates when the DrivePro detects poor lighting conditions.

Driver fatigue alert

Regularly reminds the driver to rest after driving for a self-defined period of time.

Wide Dynamic Range

Balances the light and dark areas of captured images, ensuring that every critical shot is as clear as possible.

Handy snapshot button

Allows you to take photos while recording a video. You can also remove the DrivePro from the
