Aprašymas

Euhomy IM008 Ice Maker

The Euhomy IM008 is a compact ice maker that's perfect for hot days. It can produce 9 ice cubes in just 6 minutes and 12 kg of ice per day. Thanks to its simple operation, you can use it with ease. You can also adjust the cube size (S/L), and the automatic cleaning feature makes maintenance a breeze.

Choosing the Cube Size

The ice maker lets you choose between two cube sizes—small cubes with a diameter of 22 mm and a length of 24 mm, and large cubes with a diameter of 25 mm and a length of 26 mm. Small ice cubes are a great way to instantly chill a glass of water or lemonade, while larger cubes are perfect for cocktails, providing longer-lasting cooling. Changing the size is extremely simple and is done with a click of the SELECT button.

Smart indicators

The ice maker's touch panel features clear LED indicators that show the device's current operating status. When the bin is full of ice cubes, the ICE FULL indicator will light up. When the water level drops below the safe minimum, the ADD WATER LED will light up, reminding the user to refill the water.

Automatic cleaning

Keeping the machine clean is a breeze: simply press and hold the ON/OFF button for five seconds, and the ice maker will automatically start a 30-minute self-cleaning cycle. During this time, a special rinsing system removes limescale and debris from the interior, helping to keep the machine in good condition. This means you don't have to disassemble parts for manual cleaning or use additional cleaning agents.

Compact design

The device measures just 23.1 x 30 x 29 cm, making it ideal even for a small kitchen. A sturdy, ergonomic handle attached to the top of the housing allows you to conveniently move the ice maker anywhere.

Included

- ice maker
- ice scoop
- ice cube tray
- ice maker handle
- user manual

Manufacturer	Euhomy
Model	IM008-BSI-DEEH-AZ
Rated voltage	220-240V ~ 50 Hz
Dimensions (height x width x depth)	23.1 x 30 x 29 cm
Protection class	I
Current during ice cube production	0.8A
Current during ice cube collection	1A
Weight	6.3 kg
Finish	stainless steel
