Aprašymas

Godox Litemons LP800Bi Bi-Color LED Light Panel

The Godox Litemons LP800Bi is a large bi-color LED panel that provides wide, even, and soft light for photography, video recording, vlogging, live streaming, and content creation. The color temperature range of 2800–6500 K allows you to adjust the lighting from warm tones to cool daylight, and the smooth brightness control from 0 to 100% enables precise adjustment of its intensity. The mount allows you to rotate the panel 180°, so you can easily direct the light at the right angle whether you're recording while sitting, standing, or from a higher vantage point.

Large surface area for soft light

The LP800Bi utilizes a large light-emitting surface and LEDs with high color accuracy, ensuring uniform light output. The professional diffusion panel features high light transmission, allowing you to soften the lighting without excessive loss of brightness. This solution works well for both portraits and studio setups where you want natural, balanced lighting.

Color Temperature, Brightness, and 11 FX Effects

The color temperature can be adjusted from 2,800 to 6,500 K, making it easy to transition from warm, incandescent-like light to cooler daylight. Brightness is continuously adjustable from 0–100%, making it easy to precisely match the light output to a specific scene. There are also 11 built-in FX effects available, allowing you to quickly create a more dynamic atmosphere during recordings and creative projects.

Control via the Panel or App

The built-in LED screen clearly displays the most important settings and makes it easy to adjust parameters directly from the light. The LP800Bi also supports the Godox Light app, which allows you to conveniently control the light via Bluetooth. The wireless control range is up to 30 m, making it easy to change settings even when the panel is farther away from the operator.

Included

- Light
- 1.9 m tripod (BS-3R-FE-190)

Manufacturer	GODOX
Model	LP800Bi
Power Supply	100-240 V, 50/60 Hz, 85 W
Color Temperature Range	2800-6500 K
Brightness Adjustment Range	0-100%
Number of FX Effects	11
CRI	Approx. 96
TLCI	Approx. 98
Control Methods	Bluetooth, lamp panel
Bluetooth Control Range	30 m
Operating Temperature	-10°C to 40°C
Dimensions	Approx. 34.3 × 6.6 × 62.2 cm
Weight	Approx. 2.3 kg
