Aprašymas

GODOX ML150Bi LED Light

The GODOX ML150Bi is an LED light that offers great flexibility when taking photos and recording video. It offers color temperature adjustment in the range of 2800–6500 K and a light intensity of up to 61,054 lx at a distance of 1 m when set to 5600 K. CRI and TLCI ratings of approximately 96 help maintain natural color reproduction, making this light ideal for professional photography and film productions.

Adjust the color and intensity of the light

The color temperature range of 2,800–6,500 K allows for a smooth transition from warmer to cooler lighting and makes it easier to match the lamp to the character of the scene and other light sources. An illuminance of up to 61,054 lx at 5,600 K and a distance of 1 m ensures a high light output even during more demanding shoots. High CRI/TLCI values of approximately 96 ensure accurate reproduction of skin tones, products, and other elements in the frame.

11 FX Effects for Creative Projects

The ML150Bi offers 11 built-in FX effects that allow you to quickly recreate various lighting scenarios without having to manually adjust the lamp's parameters. Available effects include Flash, Lightning, Cloudy, Broken Bulb, TV, Candle, Fire, Firework, Welding, and SOS. Each effect allows you to adjust the speed and brightness within a range of 0–100%, giving you greater control when creating dynamic photo and video scenes.

Magnetic Accessories

The GODOX ML150Bi is compatible with an extensive system of accessories that allow you to increase intensity, shape the beam, soften the light, or create more striking effects. The magnetic mounting system is designed, among other things, to work with the ML-Z zoom lens reflector. Accessories can be attached quickly and without tools, which streamlines changing lighting configurations while working on set.

App Control, NFC, and DMX

Lighting parameters can be controlled from a smartphone, making it easy to adjust settings without having to approach the light. NFC support simplifies setting up the connection with the app, and Bluetooth connectivity enables wireless control. The ML150Bi also supports the DMX system, which allows the light to be integrated into more complex, professional lighting setups.

Included in the set

- GODOX ML150Bi light
- ML-Z zoom lens reflector
- Power adapter
- ML-VMA V-Mount battery adapter plate
- AD-E2 mount
- Power cord
- Protective cover
- Storage bag

Manufacturer	GODOX
Model	ML150Bi
DC Input	36 V □ 4.6 A max.
Color Temperature Range	2800–6500 K
Brightness Adjustment Range	0–100%
Number of FX Effects	11
CRI/TLCI	Approx. 96
Control Methods	Wired DMX/RDM, Bluetooth app, lamp panel
Bluetooth Control Range	30 m
Operating Temperature	-10°C to 40°C
Light Dimensions	Approx. 9.09 × 11.51 × 9.09 cm
Light Weight	Approx. 770 g
