Pagrindinės savybės

✓ Rubber watch Strap

✓ Works with Galaxy Watch5/Watch5Pro/Watch4/Classic

Aprašymas

Two hues on one sporty band

Why choose one colour when you can go two-tone? A contrasting colour adds an edge along the sides to give this 1-pin buckle watch band a unique look. Take your pick from a range of bold and classic hues to mix, match or try out a whole new style.

Clasp on seriously smooth comfort

Smooth yet strong, this band is made of sweat-resistant and comfortable fluoroelastomer material that's more flexible than previous models. It's designed to install easily on the handles of newer Galaxy Watch models, and you can adjust the angle as you like with the added air pocket for flexibility.
