Pagrindinės savybės

- ✓ **PERFECTLY CONNECTED:** ICY BOX docking station with 3x USB Type-A USB 3.0, 2x HDMI®, 1x VGA, 1x card reader for SD/microSD cards, 1x Gigabit LAN RJ45, 1x audio in/out and a USB Type-C® charging port
- ✓ **ERGONOMIC WORKING:** The IB-DK2106a-CPD docking station also serves as an elevation for your laptop. This creates an ergonomic angle for the keyboard and allows device heat to dissipate more efficiently
- ✓ **PLUG & PLAY:** There is no need to install drivers. Simply plug in the integrated nylon-sheathed USB Type-C® cable and your laptop becomes a multi-display workstation
- ✓ **POWER DELIVERY:** The Type-C connector of the docking station serves as a pure charging port (no data transfer) with a power of up to 100 W (20 V@5 A). A power supply unit must be connected to the laptop for this purpose
- ✓ **CONNECTING MONITORS:** For more effective work, you can connect two monitors. Use either the two HDMI® connections or one HDMI® connection in combination with the VGA interface

Aprašymas

More Options

DockingStations not only offer users a way to quickly transition from one working environment to another via a single cable, but they can also add additional functionality and capabilities to notebook designs that are increasingly slim and with limited interface option.

USB Type-C®

The Type-C® connection offers incredible versatility. It combines data transmission, video output, and power in a single, compact port. The integration of USB Type-C® makes the connection even more practical, as it has a twist-proof connection as its physical feature - making it a truly universal connection.

Easy connection - multiple benefits

Perfectly combines a high-quality appearance and efficient technology with a very compact size. The premium aluminum DockingStation does not only look good but also offers high comfort while using. This solution is suited for any location such as private or office areas.
