Aprašymas

Premium connection USB-C <-> USB-A Data and Charging AXAGON BUCM-AM20AB HQ USB 2.0 cable with USB-C male and USB-A male connectors. The cable is designed to data synchronization and charging phones, tablets and other mobile devices. It supports up to 480 Mb/s data transfer and charging with current up to 3A. The cable is compatible with charging technologies Quick Charge, Samsung AFC, Huawei FCP, SMART and others.

Durable data and power cable with extended service life is equipped with metal terminals, connectors with a nickel-plated surface and gold-plated contacts. Cable conductors are made of tin-plated oxygen free copper. High-quality cable insulation, made of flexible TPE, guarantees maximum durability and also maintains sufficient flexibility. The final strength of the cable is provided by the nylon braid. The bonus is a practical strip for easy packing of the cable.

Power cables 22AWG (lower number = larger cross-section and lower wire resistance) guarantee fast charging of phones and other mobile devices. Data wires 30AWG together with high-quality shielding, ensure reliable data transmission. Double shielding protects transmitted signals from adverse interference.

Nylon braid in combination with a cable gland significantly reduces dangerous cable bending. The cable life is extended to more than 8000 standard bends. The mechanical resistance of the cable is also increased by the aluminum terminal covers.
