Aprašymas

Lanberg's 4K HDMI cable (version 2.0, High Speed with Ethernet) is the ideal solution for audiovisual transmission between multimedia devices such as PCs / laptops, monitors, TVs, NAS servers, projectors, gaming consoles and more.
Due to 2 high quality connectors, it is possible to connect any device that supports HDMI High Speed with Ethernet. The cable provides high quality image and sound transmission, as well as great performance. This particular video cabling solution is ideal to use indoors when watching your favorite 4K TV shows and movies, playing demanding online games or working on important projects, while providing uninterrupted, high-quality broadcasts for important corporate presentations.
Maximum supported image resolution of this particular cable is 3840 x 2160 - it means this wiring solution provides the highest possible 4K UHD resolution and unforgettable viewing experience, while maintaining high depth of image / sound quality which enables users to feel like they are in the middle of action / gameplay. Use of the highest quality materials, within the manufacturing processes of this product, ensures its long, uninterrupted use.
