## Aprašymas

Due to the increasing popularity and universality of USB-C, it displaces other USB or video ports, as a result of which the laptops have USB connectors for connecting both peripherals and displays.

To meet the changes in the market, they offer USB-C to HDMI cables that allow you to connect the monitor directly to the USB-C port on a laptop or PC. Thanks to use of an efficient chipset, the maximum resolution is 4k with a refresh rate of 60Hz.
