Aprašymas

WiFi 6E plus security & easy to manage

SCR 50AXE is an entry-level router firewall, designed for SOHO/small business, integrated with best-in-class security, and easy management with the Nebula cloud.

Subscription-free security that is constantly evolving

Equipped with best-in-class threat management features powered by Zyxel Security Cloud, the SCR 50AXE detects malicious vectors and prevents drive-by download of wide-spreading ransomware/malware. It's subscription-free, making security affordable to small business owners!

Easy to use app for everyone

With a few simple clicks, your devices will be up and running in minutes. Nebula mobile app easily gets your SCR 50AXE's WiFi and security features running without requiring you to have any networking knowledge.

Fast and efficient with optimized WiFi 6E

The SCR 50AXE's tri-band WiFi operates concurrently to boost wireless network speed of up to 5.4 Gbps. Thanks to the new 6GHz band with super-wide 160MHz or 80MHz split channels, delivering maximum speed to multiple connections simultaneously with low latency.

At home, in the office, it's all just connected

Nebula Cloud Networking solution allows you to just connect, protect, and manage the SCR 50AXE and other Zyxel's compatible appliances with our centralised cloud platform, Zyxel Nebula.

Guest access, made easy*

With Guest WiFi, you can create a separate network for your guests to use, keeping your main network private and secure. No more sharing your personal WiFi password with strangers or worrying about them accessing sensitive information on your network. This can be set up in a few simple steps and protects your business network from outside access.

Simple WFH VPN setup

Build secure tunnels for Work-from-home users to extend the working experience easily and securely. The SCR 50AXE's Site-to-site VPN keeps your home office securely connected without any complex VPN configuration steps.
