The technology in the ULT FIELD 5 works in harmony for better sound quality. The X-Balanced Speaker Unit delivers deep, punchy bass, and clear vocals even at high volumes. A high-efficiency tweeter provides crisp and spacious sound for high-frequencies. And the passive radiators are optimised for impressive bass extension and distortion-free sound. Put it all together and you get a great sound worth sharing with your friends.

Powerful sound with X-Balanced Speaker Unit?

Our X-Balanced Speaker Unit features a non-circular diaphragm, for an increased surface area compared to conventional speaker units. The approx. 79 mm x 107 mm large woofer unit is designed for clear and deep bass sound.

A richer, clearer, deeper experience?

The non-circular diaphragm not only maximises the area of speaker diaphragm but it also increases sound pressure for deeper and punchier bass, less distortion and greater vocal clarity. Altogether, it elevates your listening experience.

A powerful deep bass boosted music experience, to be enjoyed anywhere

With a shoulder strap, long battery life and durabilities like water, dust and rust proof, you can take this speaker anywhere you want to go without worrying.
