Aprašymas

THE ULTRA-RUGGED MOBILE COMPUTER RE-IMAGINED FOR THE NEW AGE OF MOBILITY

Introducing the TC73/TC78, a new generation of mobile computers designed for a new generation of mobile solutions. Streaming video, video calls, intuitive multimedia-rich apps, augmented reality apps that enable new, more effective workflows — the rugged, thinner and lighter TC73/TC78 supports them all. More processing power for simultaneous app support. A 6-inch advanced display. More flexible battery options. Comprehensive wireless network support for unmatched performance and reliability — Wi-Fi 6E, 5G and CBR51. Bluetooth 5.2 for superior accessory performance. The next level in scanning performance with the SE55 Advanced Range scan engine. Crystal clear voice on audio and video calls. Add the functionality of a workstation, two-way radio, RFID, PBX handset and an integrated mobile dimensioning solution. Mobility DNATM tools simplify every aspect of the TC73/TC78. And you get five years of product availability with 10 years of service and support. Step up to the TC73/TC78 — and step into the new world of mobility.

More rugged, lighter, thinner — and more ergonomic

Advanced manufacturing and materials technologies enable a more rugged design — without adding weight or thickness. It's built to handle 10 ft./3.05 m drops to concrete and 2,000 consecutive tumbles. With IP65 and IP68 sealing, it's dustproof and waterproof — submerge it in water and spray it down with a hose. Corning Gorilla Glass protects the display and imager window with maximum scratch-resistance and shatter-proofing —

two of the most crucial and vulnerable features. The advanced industrial design and ergonomics bring superior comfort to practically any size hand, minimizing the effort required to hold and use these devices through exceptional balance, a grip area that is nearly 20% thinner and proper key placement and size.

Industry-leading 6-inch advanced display

More display space means less scrolling. The edge-to-edge display is 28% larger³, easy to view indoors and outside, works when wet and with a stylus or a finger — even with a glove.

All the right battery features and flexibility to stay powered up

Choose from four battery options: standard, extended capacity, wireless charge⁴ and BLE, enabling device location with Device Tracker — even if the battery is depleted. All batteries are fast charging. The sealed battery compartment enables anywhere, anytime battery changes. Charge it with any standard USB-C charging cable. And PowerPrecision+ battery metrics make it easy to identify and remove unhealthy batteries from your battery pool.

Blazing speed

Run simultaneous demanding applications with virtually instant response times with class-leading processing power, memory and storage. The next generation Qualcomm 6490 octa-core processor delivers 90% more processing power, a 400% faster graphics processor and locationing that is six times more accurate. And up to 8 GB of RAM and 128 GB Flash, plus a 2 TB MicroSD card slot provides ample storage for the most data-intensive applications.
