Aprašymas

No more big black boxes

There's no need to let a big, black TV screen permanently dominate your space. By using a non-fixed screen and projector, you'll have the flexibility to view content on a big screen when you need it and hide it away when it's not in use.

Make the most of your projector

Don't settle for projecting on to a bare wall – with our screens you can enjoy the exceptional detail, vibrant colours, defined shadows and deep blacks that your projector provides.

Fuss-free assembly

Forget complicated instructions and lengthy installations, our screens are quick and easy to assemble. Just like our projectors, Epson screens are designed to get you up and running with minimal fuss. What's more, they're also easy to stow away.

Flexible positioning

Our versatile screens can be used in almost any room and can be easily adjusted so that you can get the best out of your projector.

Mobile X-Type Screen Size : 80" Format : 16 : 9 Size External 1831 × 1066 mm Black mask 30 mm Projection Size : 1771 × 996 mm gain : 0.9
