AXE3000 Wi-Fi 6E High Gain Wireless USB Adapter

WiFi 6E: A Freer and Faster Future

WiFi 6E introduces the brand new 6 GHz band without any overlap or interference from other bands and older devices. This means a congestion-free frequency that offers more bandwidth, faster speed, and lower latency.

Greater Coverage

and Stability

The multi-angle adjustable high-gain antennas combine with Beamforming to concentrate WiFi signals towards your router for better reception and reliable connections from far away.

Lower Latency, Higher Efficiency, and Less Congestion

MU-MIMO

Experience flawless streams, gameplay, and uploads while your network simultaneously processes bandwidth for multiple devices.

OFDMA

Working with a compatible router, your PC receives data at the same time as other devices on the same stream. This means next-to-nothing lag for video and games.

USB 3.0 for Superior Transfer Speeds

Experience blazing-fast data transfers of up to 5.0 Gbps with USB 3.0 — the latest USB connectivity standard. USB 3.0 transfers data up to 10x faster than USB 2.0 and is also backwards compatible with USB 2.0. Combined with 802.11ac Wi-Fi, USB 3.0 makes Archer TXE50UH ideal for HD streaming, online gaming and large file downloads.
