Aprašymas

Finally a solution that gives you the highest quality of cable hide to an equal aggressive pricepoint. Match the quality in your home cinema or hifi system with equal quality when hiding your recess wiring.

The M Universal Cable Cover is a super high quality aluminium trunking system with clean Nordic design and the solution for hiding all surface wiring or pipework and suitable for Scart, HDMI, CRT, VGA and other mains leads.

Different sizes and colours give everyone the possibility to individually choose their size and colour depending on need. Multibrackets has a large variety of choices in both colours and lengths.

The silver and black cable covers are manufactured out of anodised aluminium. The white cable cover is coated with white paint on the anodised surface.

The M Universal Cable Cover simply screws straight to the wall to give an effective and stylish finish to your hifi or tv mounting area.

A clean simple and smart way to hide cables to your TV and other electronic equipment.

Multibrackets storage and handling of aluminium parts.

It is important that aluminium is handled as little as possible from production to the customer. Consequently, Multibrackets have implemented a storage and transport solution ensuring a minimum product handling which guarantee optimal surface quality.

Retail recommendation.

All M Universal Cable Covers are delivered in single gift box packages. 6 pcs single gift boxes are delivered in a "6-pack" from the designated distributor.

Our recommendation to retail is therefore always to purchase a minimum of 6 pcs at a time, for the best shipping and handling.

M Universal Cable Cover is design protected by Multibrackets.
