card slot allow you to store a large number of books and documents directly in the device. The device has a pre-installed audio player which allows you to listen to music or audio books. It also has the TTS (Text-To-Speech) function which can be used to vocalize text files. The device is made in a thin compact body with page turning buttons on the right side. The screen is covered with protective ONYX Glass. The model supports a stylus for taking handwritten notes and drawings (sold separately). Thanks to its larger screen and note-taking ability, this E-Reader is ideal for those who plan to combine reading books and working with documents using a stylus.
