Aprašymas

The Synology FlashStation FS200T is designed to enhance network storage solutions with its SSD compatibility and efficient performance capabilities. Featuring a sleek chassis with built-in status LEDs and an LED panel, this storage device seamlessly accommodates your organization's needs while ensuring optimal operational conditions, with a temperature range of 0°C to 40°C and a humidity range of 8 - 80% RH. Its environment-friendly sound emission level of just 21.3 dBA makes it ideal for office use.

With a robust configuration of six hot-swap 2.5-inch expansion bays, the FS200T supports effortless upgrades and maintenance. Connectivity is simplified with options such as Gigabit Ethernet and 2.5 Gigabit Ethernet interfaces, alongside USB 3.1 Gen 1. It is compatible with various network protocols including iSCSI, SMB, and NFS, which ensures smooth data transfer and access flexibility, making it suitable for small and medium-sized businesses. The backing of multiple compliance standards showcases its reliability and security in storing important data.
