Pagrindinės savybės

- ✓ Miniature size
- ✓ Shock-resistant COB technology
- ✓ Perfect for car radio

Aprašymas

Small and durable UPI2 is great choice for a wide range of applications. This elegant, miniature USB flash drive can be for example carried in wallet or next to the keys providing user with an instant access to all the necessary data – files, movies, photos and favorite music. The universal black or white UPI2 housing, combined with the profiled shape, makes this USB flash drive very functional and convenient to use.

Small size for big things

The UPI2 housing is just around 2 cm long, yet this flash drive can store up to 64 GB of data. The small size allows convenient data transfer and storage of this flash drive.

Drive to your favorite music

UPI2 flash drive is perfect for use in car entertainment systems. Once inserted into the USB port, UPI2 is virtually invisible: it doesn't disturb and doesn't need to be removed from your car's USB port every time. Very good transfer speed will satisfy even the most demanding users.

Endurance for the most active

UPI2 flash drive uses the COB (chip on board) technology – silicon memory chips and controller were mounted on a single printed circuit, and

covered with special resin. Thanks to this, apart from small dimensions and weight, this flash drive gained an additional advantage: it is shock-proof, which translates to even greater comfort of use.

Techninė specifikacija
