Aprašymas

Compared to its little brother from the HP Pro Laminator series, the HP Pro Laminator 600 A3 is suitable for larger tasks, since this elegant laminator in black design and high-quality glass surface seals your important documents up to DIN A3 format. The modern helper is not only suitable for menus, timetables and price lists, but also for placemats in the catering trade, for example. Thanks to the laminating process, these documents are not only protected from dirt, but also score points with their wipe-clean functionality. The powerful laminator warms up in just one minute and laminates a DIN A3 page in less than 45 seconds. This corresponds to a laminating speed of 600 millimetres per minute.
