Pagrindinės savybės

- ✓ Displays HDMI signals across 4 displays simultaneously from one source device
- ✓ Supports resolutions up to 4K 60Hz 4:4:4, with additional support for HDR
- ✓ Extract digital and analogue audio from HDMI for non-HDMI amplifiers
- ✓ Features a neat switch for downscaling from 4K to 1080p
- ✓ 2 year warranty

Aprašymas

The Lindy 4 Port HDMI 2.0 18G Splitter with Audio is a multi-function solution for distributing high quality HDMI signals across 4 displays simultaneously from one source device, while extracting digital or analogue audio separately.

With support for resolutions up to 4K 60Hz 4:4:4 8bit, this splitter is great for creating eye-catching quad display digital signage in retail scenarios, displaying sports across multiple screens in sports bars or distributing engaging multiscreen educational presentations at tradeshow. The splitter also has separate optical and 3.5mm audio ports to easily extract audio from HDMI to connect non-HDMI amplifiers or soundbars, ideal for supporting video with immersive multichannel audio.

The splitters also feature an integrated switch to downscale the input signal to Full HD, making installations with older displays hassle free while

always ensuring the viewer receives the optimum picture from their display.

Techninė specifikacija

Specifications	
Sandėlio grupė	Video Splitters [+14][-15]
Ports & interfaces	
Video ports quantity	5
Video port type	HDMI
Video out	4x HDMI
HDMI version	2
Audio ports quantity	2
