Aprašymas

Expand your laptop's connectivity with a single compact hub. The i-tec USB-C / USB-A Metal HUB combines six high-speed USB ports, Gigabit Ethernet and Power Delivery in a premium aluminium enclosure.

Its biggest advantage is the integrated USB-C cable with a built-in USB-C to USB-A adapter, allowing the hub to work with both the latest USB-C devices and older computers equipped with USB-A ports—without the need for additional adapters. Three USB-A and three USB-C ports provide data

transfer speeds of up to 5 Gbps, while the dedicated 100 W USB-C Power Delivery input powers the hub and delivers up to 85 W of charging power to your laptop. Combined with reliable Gigabit Ethernet, it's the ideal companion for the office, home or travel.
