Aprašymas

Product description

Black and red or black and silver - when it comes to colors, you first have to make this decision with the emporiaONE. Not so easy, is it? Fortunately, both versions come with the same additional functions and features. And this popular flip phone with external display has plenty of them. Let's start with the obvious: The emporiaONE has a 1.77-inch external display and a 2 MP camera. This means you can take snapshots in no time at all - whether in your own four walls or when traveling. The display also scores points with a large call display and excellent readability. And you can even make calls with this phone when it is closed. Sounds fantastic, right? Well, it is! We also have two different battery covers for this flip phone with external display - one with and one without an emergency call button. This means you are prepared for emergencies and can quickly call for help and set the rescue chain in motion if necessary. This device is also IP54-certified, meaning it is dust and splash-proof. All in all, you are getting a modern flip phone in your home or in your hand - with a large external display and an attractive design. Well, can you still contain your anticipation?

Techninė specifikacija
