The adapter is also compatible with other fast phone charging standards such as Apple iPhone, iPad, Samsung, Huawei, Honor, Xiaomi. The main advantage of the power adapter is the Power Delivery 3.0 standard for charging Apple MacBook, Lenovo, Asus, HP, Dell and other laptops. You can charge your laptop directly or with the increasingly popular docking stations and port replicators.

The advanced protection system at the charging adapter output protects the device being charged from damage. The charger function also detects the device being charged and selects the optimal charging speed and progress.

The body of the power adapter has a pleasant shape and size. Compared to classic charging adapters with the same parameters, the size of this charger is up to half the size. The combination of small dimensions, achieved with GaN technology and a wide range of input voltages, makes the charger an ideal travel helper.
