Aprašymas

This high-quality power cord offers a dependable solution for connecting devices that require a secure and efficient power supply. Featuring an IEC C20 plug on one end and an IEC C13 connector on the other, this cable is ideal for use in data centers, server rooms, and professional environments. Supporting up to 250V and 16A, it is well-suited for powering servers, network switches, IT equipment, and other high-performance devices.

Built with premium materials, this power cord ensures exceptional durability and reliability. The copper conductors are designed to provide excellent conductivity and efficient energy transmission, reducing power loss while ensuring stable performance. The precisely molded connectors ensure a snug fit, minimizing the risk of accidental disconnections and maintaining consistent power delivery.
