Aprašymas

Bumping your Apple Watch against mountain rocks on mountain tops? Brushing it against sharp-edged corals at the bottom of the sea? Or hitting it against dripstones in underground caves? No worries. This ultra-scratch-resistant screen protector from PanzerGlass® protects your Apple Watch from the hazards of an adventurous-and-not-so-ordinary-life. It even has a smudge-free coating that reduces traces of fingerprints and dirt. The screen protector protects and prolongs the lifetime of your watch so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging: In 2024, we reduced the amount of paper in our PanzerGlass® core product packaging design by an average of 66%*. So, of course, this product comes in a recyclable FSC™-certified box. Installing the screen protector is also easy, and once it's applied, you'll never again fear that terrible crunching sound of glass against stone. This may never happen, but if it does, you'll regret not having clicked "add to cart". The screen protector covers the entire screen and comes in FSC™-certified packaging that can be recycled. *Reduction from 2022-2024 measured by comparing selected products from the PanzerGlass® core range.
