Aprašymas

A new star in screen protection is born! Ceramic Protection from PanzerGlass® is an out-of-this-world screen protector that sets a new standard for durability! It’s 5 times stronger than our strongest screen protector to date. Or to put it in impact terms: You can drop a 320 g steel ball from 2.5 meters onto the screen protector without breaking it! It even has a smudge-free coating that reduces traces of fingerprints and grease. The screen protector is made of certified Japanese glass-ceramics from Ohara. Glass-ceramics is one of the world’s most scratch-resistant materials and contains imbedded crystals, invisible to the naked eye, that prevent cracks from spreading, enabling a level of strength that can’t be achieved with conventional glass. And as if that wasn’t enough, the transparency of the glass is second to none thanks to Ohara’s nano-crystallization technology. The enclosed EasyAligner makes installation a piece of cake (seriously!), and to make it even easier, we’ve included step-by-step instructions as well as a QR code for quick access to our online how-to video. And remember: Once the screen protection is applied, you’ll never again fear the sight of your phone tumbling to the ground screen first. This may not happen, but if it does, you’ll regret not having clicked “add to cart”. The screen protector is Ultra-Wide Fit. This means it covers the front surface of your phone, providing a complete view of your screen while leaving a little room

around the edges for a PanzerGlass® case, for example, a fearlessly fashionable case from CARE by PanzerGlass®. And if you’re thinking: “What if my camera lenses get scratched?” Well, help is just a few clicks away: Combine your screen protector and case with PanzerGlass® PicturePerfect or Hoops® And, of course, this product comes in a recyclable FSC™-certified box.
