Pagrindinės savybės

- ✓ **ESSENTIAL MATERIAL:** The notebook holder is made of high-quality aluminium through and through. The extremely careful workmanship and the smoothly moving joints are evidence of a high-quality product
- ✓ **ALWAYS AT EYE HEIGHT:** The Z-shaped design allows the notebook screen to be individually adjusted to eye level. This supports an ergonomic posture and is easy on the neck and shoulders
- ✓ **SMOOTH-FREE:** Silicone strips are attached to the top and bottom edges of the shelf to ensure that your laptop rests securely on the shelf and does not fall off even when tilted
- ✓ **LIABLE:** The laptop stand can easily support a weight of up to three and a half kilos in all settings. If only a low angle of inclination is selected, even more than 3.5 kg is possible
- ✓ **WELL COOLED:** A large part of the shelf surface is perforated with slots. This ensures that the IB-NH300 is sufficiently cooled when the notebook is in place and even during intensive use

Aprašymas

Sturdy and versatile

The IB-NH300 notebook holder is carefully and very solidly made. The entire holder is made of high-quality aluminium. The design is adapted to the requirements of comfortable working, so that versatile adjustment options promote fatigue-free working.

Adjustable in two planes

The IB-NH300’s smooth-running joints, which are arranged in two planes, allow the user to adjust the angle and height of the notebook ideally to suit personal needs. Two degrees of freedom of angle adjustment offer an enormous number of possibilities to achieve an ergonomic posture.

Non-slip and well ventilated

Thanks to the IB-NH300’s generously perforated shelf, a resting notebook is given enough air to breathe even during long periods of operation. Equally useful are the two long silicone strips on the top and bottom edges, which effectively prevent the notebook from slipping.

Techninė specifikacija

Specifications	
Sandėlio grupė	Tablets & Smartphones [+3621][-199]
Design	
Product type	Laptop stand
