Pagrindinės savybės

- ✓ Enables mounting of the Intel® NUC with a display at a monitor stand simultaneously
- ✓ Saves more space for your working area
- ✓ Can be attached to almost any standard VESA® 75x75 and 100x100 mm monitor mounting bracket

Aprašymas

A bracket on the bracket

The ICY BOX Intel® NUC holder IB-MSA103-VM is an optional accessory that is ideal for use with ICY BOX monitor stands. The tray attaches easily to any standard VESA 75x 75 / 100x100 mm mounting bracket. So whether desk mount or wall mount, it all accommodates perfectly into your working environment and easily offers an ergonomic workstation at home or in the office.

Good resting place

The ICY BOX Intel® NUC holder is a convenient extension panel designed to expand the available VESA mount behind the monitor.

Full effect

Easy to assemble and very useful. When using a MiniPC, the cabling will be tidied up and there will be more room in your workspace.

Holds twice

Normally when you install a monitor arm, the VESA® mount on the monitor is no longer available for anything else. With the IB-MSA103-VM it is now possible to install an Intel® NUC and monitor arm together behind one monitor.
