Aprašymas

GAN SLIM 30W PD is the ultra-compact charger ideal for those seeking power and portability. With an ultra-slim design and two 30W USB-C ports featuring Power Delivery technology, it ensures fast and optimized charging for smartphones, tablets, and small devices. Also compatible with Samsung's 25W Super Fast Charging, it's perfect for travel or mobile work. If both ports are used simultaneously, they deliver 15W each. Thanks to GaN (gallium nitride) technology, it produces less heat and allows for a more compact arrangement of components, improving efficiency and reducing size. It includes protection against overloads and short circuits, as well as an automatic adapter for 110/240V sockets.
