Pagrindinės savybės

- ✓ Works with LogiLink MP0027 open front connector
- ✓ Suitable for most RJ11, RJ12, and RJ45 connectors (except AMP)
- ✓ With ratcheted for straight-action motion
- ✓ Built-in wire cutter and stripper
- ✓ Steel frame with rust-resistant black oxide finish
- ✓ Handles with rubber grip provide a secure grip
- ✓ Perfect for terminating CAT5e and CAT6 cables (solid & stranded)

Aprašymas

The LogiLink WZ0037 crimping tool is ideal for professional installers. It features a ratchet that allows quick and reliable connections continuously. This high-quality crimping plier is suitable for all standard RJ45 and RJ12 plugs and especially useful for cables with solid wires, which are normally difficult to process. The WZ0037 is also well suited for the LogiLink's MP0027 Cat.6 connector plugs, which are open at the front.
