signal areas once and for all!

+ With advanced Deco Mesh Technology, units work together to form a unified network with a single network name. Devices automatically switch between Decos as you move through your home for the fastest possible speeds.

+ A Deco E4 two-pack delivers Wi-Fi to an area of up to 2,800 square feet (EU version). And if that's not enough, simply add more Decos to the network anytime to increase coverage.

+ Deco E4 provides fast and stable connections with speeds of up to 1167 Mbps and works with major internet service provider (ISP) and modem.

+ Deco can handle traffic from even the busiest of networks, providing lag-free connections for up to 100 devices.

+ Parental Controls limits online time and block inappropriate websites according to unique profiles created for each family member.

+ Setup is easier than ever with the Deco app there to walk you through every step.
