

FLASHLIGHT EDC SERIES/EDC27UHI NITECORE

Modelis: EDC27UHI

Gamintojas: NITECORE

EAN: 6952506408351

Prekės kodas: 68345

73.99€ ~~123.99€~~

Designed to Lead Built to Outperform

Launched in 2023, the EDC27 made waves in the industry with its cutting-edge, ultra-slim design, sparking a new trend in slim and high performance flashlights. The latest EDC27 UHI builds on this success, with high-precision UHI LEDs for even brighter and further illumination, pushing the boundaries of what slim and high performance flashlights can achieve.

Both Nitelab and NITECORE belong to SYSMAX which is dedicated to exploring LED technology to reinvent the flashlight LED solutions. NiteLab cooperates with an industrial partner to jointly develop the UHI LED Series, specially designed for flashlights. Featuring high light density and high beam intensity. the UHI LED utilizes the round light emitting surface (LES) to achieve an optimal lighting effect and beam distance, which challenges the impossible and begins a new era of the flashlight LED.

Lightweight and Tough

Weighing just 122g (4.30 oz), the EDC27 UHI features a high strength stainless steel body to withstand heavy pressure and resist bending. The surface is treated with a PVD (Physical Vapor Deposition) titanium coating for excellent durability and resistance to scratches and fingerprints.

Built to Last

Advanced Sandwich Construction

Front and rear stainless steel shells fused with a high strength carbon fiber composite frame, secured by six sets of connector bolts, to achieve a lightweight yet rigid construction that resists compression, twisting, and bending.

Semi-embedded Heat Dissipation Design

Achieves excellent heat dissipation comparable to other high output compact flashlights

The heat dissipation plate almost extends from the head to the tail, which helps conduct and disperse heat quickly. The striped design on the body not only projects heat outwards to prevent overheating but also increases contact with air for enhanced cooling efficiency.

Brightness Level Preset Function

Preset the flashlight's brightness before turning on to match different tactical situations. The custom settings also help avoid harsh glare during daily use.

Long-Lasting Runtime

Built-in 1700mAh Li-ion Battery

Runs on 55 hours in an ultra lightweight and slim body. A USB-C port is designed for on-the-go charging outdoors.

Sensor Protection Function

When the flashlight is off, if there is an obstruction near the light outlet and the flashlight accidentally accesses HIGH/TURBO/STROBE, the flashlight brightness will automatically decrease to avoid overheating.

Always Carry with Ease

Features a stainless steel clip for on-the-go carry and a thoughtful finger groove to prevent

accidental activation when putting it into your pocket.

- Utilizes 2 x UHI 20 LEDs with a max output of 3.100 lumens
- Max peak beam intensity of 23.500cd and max throw of 305 meters
- Multifunctional OLED real-time display for brightness level, lumens battery voltage and runtime, etc
- Built-in 1,700mAh Li-ion battery
- Uses a precision metal orange peel reflector, offering long range and wide angle illumination
- Advanced Power Cut-Off (APC) technology for an ultra-low standby power consumption
- Highly efficient constant current circuit provides a stable output up to 55 hours
- Dual tail switches enable intuitive operations for tactical applications
- 5 brightness levels and 1 special mode available
- Level preset function available for setting the desired level in advance
- STROBE READY™ Technology to enable a quick access to STROBE Mode
- STROBE Mode uses randomly changing frequencies for stronger dizzying effects
- Built-in Li-ion battery charging circuit with a USB-C port
- Intelligent mode memory function
- 2 lockout modes available (Semi Lockout Mode and Full Lockout Mode)
- Incorporated Advanced Temperature Regulation (ATR) module (Patent No. ZL201510534543.6)
- High strength stainless steel body with PVD (Physical Vapor Deposition) titanium coating
- Waterproof and dustproof rating in accordance with IP54
- Impact resistant to 1 meter

Summary: Nitecore EDC27 UHI. Flashlight type: Hand flashlight, Product colour: Black, Housing material: Stainless steel, Titanium. International Protection (IP) code: IP54. Lamp type: LED, Lamps quantity: 2 lamp(s), Light output (min): 15 lm. Charging source: USB, Battery type: Built-in battery, Battery technology: Lithium-Ion (Li-Ion). Height: 135 mm, Weight: 122 g, Head diameter: 3.14 cm | Vendor Homepage: <https://flashlight.nitecore.com/product/edc27uhi> | Control type: Buttons | Flashlight type: Hand flashlight | Housing material: Stainless steel, Titanium | Product colour: Black | International Protection (IP) code: IP54 | Waterproof: Yes | Lamp type: LED | Lamps quantity: 2 | Light beam distance (max): 305 | Light beam distance (min): 24 | Light output (max): 3100 | Light output (min): 15 | Luminous intensity: 23500 | Number of light modes: 6 | Battery capacity: 1700 | Battery life (max): 55 | Battery technology: Lithium-Ion (Li-Ion) | Battery type: Built-in battery | Charging source: USB | Rechargeable battery: Yes | Head diameter: 31.4 | Height: 135 | Weight: 122 | Package
