Pagrindinės savybės

- ✓ Hi-Res Audio with 40mm Drivers & 24-bit DAC – Enjoy detailed, high-fidelity sound with LDAC support and 96kHz sampling rate
- ✓ Hybrid ANC + ENC Mic – Four-mic active noise cancellation and a detachable mic with ENC ensure clarity in noisy environments
- ✓ Multi-Platform Wireless & ClearScan – Stable low-latency audio via 2.4GHz and Bluetooth 5.4 with smart frequency management
- ✓ Up to 45 Hours Battery Life – Long-lasting 750mAh battery with fast USB-C charging keeps you connected for marathon sessions
- ✓ Lightweight Comfort at 330g – Glasses-friendly memory foam ear cushions and ergonomic design for all-day wear
- ✓ Tri-Mode Connectivity – Seamless switching between 2.4GHz wireless, Bluetooth, and wired USB-C connection for maximum flexibility across devices

Aprašymas

Experience powerful, high-resolution sound and minimal latency with the HATOR Hypergang 3 Wireless. Hi-Res certification support, advanced Hybrid ANC noise-canceling system, precise positioning, and 360° sound through Spatial Audio and Head Tracking technologies ensure an immersive gaming experience without compromise.

A recognizable yet modernized and contemporary design combined with traditionally reliable construction. The UV Coating provides a pleasant tactile feel and helps maintain the headset's pristine condition throughout extended use.

Powerful 40mm drivers with Hi-Res Audio certification provide clear and detailed sound, allowing you to fully immerse yourself in gaming or enjoy your favorite music.

True stereo sound — thanks to the unique driver cavity design. The isolated driver cavity reduces sound distortions and vibrations, ensuring cleaner and more accurate audio reproduction.

The Hybrid ANC active noise cancellation system is powered by a combination of four microphones and a dedicated processor, delivering seamless noise reduction for both 2.4GHz and Bluetooth wireless connections.

ClearScan™ technology continuously scans the wireless spectrum and selects the optimal frequency, ensuring stable signal performance even in congested environments.

Spatial Audio and Head Tracking technologies deliver immersive sound and precise positioning in games.

Stay in the game while taking calls! The headset supports Bluetooth phone connectivity with ENC noise cancellation for crystal-clear conversations. Built-in controls on the ear cup make it easy to manage calls, adjust volume, and access essential functions effortlessly.

24-bit DAC with up to 96 kHz sampling rate and Hi-Res certification combined with a 32-bit dual-core DSP delivers top-tier audio quality. With precise reproduction of even the smallest nuances and efficient signal processing, you'll experience deep immersion in music, gaming, or movies, enjoying crystal-clear and detailed sound.

The detachable high-sensitivity microphone ensures clear and natural voice transmission for team communication or streaming. And when removed, the headset transforms into a lifestyle audio device without sacrificing functionality! Thanks to the additional built-in microphone, you can still take phone calls even with the main mic disconnected. An innovative low-degradation lithium-ion battery with a capacity of 750mAh delivers up to 45 hours of battery life.

Comfortable protein leather ear cushions filled with special foam ensure effective noise isolation, even when worn with glasses.

Support for the proprietary HATOR SynchronHUB® mobile app allows you to fine-tune audio settings and additional features, including the ability to upload custom voice notifications.

Techninė specifikacija

Specifications	
Sandėlio grupė	Peripherals & Desktop > Headsets [+2381][-731]
Performance	
Product type	Headset
Wearing style	Head-band
Recommended usage	Gaming
Headset type	Binaural
Product colour	Black
Volume control	Rotary
Control unit type	On-ear control unit
Backlight	Yes
Backlight colour	Multicolour

LED indicators	Yes
Certification	Hi-Res
Ports & interfaces	
Connectivity technology	Wireless
USB connectivity	Yes
USB connector	USB Type-C / USB Type-A
Bluetooth	Yes
Bluetooth version	5.4
RF connectivity	Yes
Frequency band	2.4 GHz
Headphones	
Ear coupling	Circumaural
Headphone frequency	10 - 44000 Hz
Impedance	16 Ω
Headphone sensitivity	115 dB
Magnet type	Neodymium
Driver unit	4 cm
Noise canceling	Yes
Noise canceling type	Hybrid
Microphone	
Microphone type	Boom
Microphone sensitivity	-38 dB
Microphone direction type	Unidirectional
Detachable microphone	Yes
Battery	
Battery operated	Yes
Battery type	Built-in battery
Battery capacity	750 mAh
Continuous audio playback time	45 h
Battery recharge time	3 h
