Aprašymas

Powerful Pan Tilt

Cover every corner flexibly with VIGI's Pan Tilt camera. Customized patrol routes and auto tracking provide more intelligent options to monitor key areas and improve the security within your property.

Outdoor Wi-Fi Connection, Simple Wiring

Just power up your camera, then the transmission starts by its 2x2 MIMO antennas. Waterproof hardware protects stable performance in outdoor scenarios.

Clarity and Colors, All in One

Monitor 24-hour clear and colorful details even in pitch dark night. VIGI Full-Color camera provides maximum 4MP resolutions and ensures colorful monitoring with its large-aperture lens, high-sensitivity sensor, and attached supplemental lights.

We keep an eye on your business.

Smart Detection

Receive notifications and check feeds when someone crosses a boundary, enters an area you've set, or obstructs the camera.

Active Defense

Warn potential intruders instantly with sound and light when abnormal events are detected.

Every Event is Under Your Control.

VIGI camera intelligently detects activities, informs you instantly, and responds automatically by smart detection and two-way audio.

Smart IR

Keeps objects from being under-rendered when far away or overexposed when close to the camera at night.

Wide Dynamic Range

Adjusts for lighting contrast to minimize shadowing effects and renders images true to life.

3D DNR

Removes abnormal pixelation to provide clearer video and eliminate distortion.

More compression. More savings. Same quality.

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Flexible Management and Storage

Take full control over your security via four management methods: the web UI, NVR UI, VIGI app, and VIGI Security Manger. Local storage is available for each method, as well as on-board storage with an SD card slot (up to 256 GB).
